## QUIET BEFORE STORM.

All Depends on the Action of the Advisory Board.

### GENERAL STRIKE IS ANTICIPATED.

**Shaffer Says the Issue Has Been Drawn and That He Will Die Fighting Rather Than Lay Down — Labor News.**

Pittsburgh, April 17.—Quiet prevails about the W. Dewees Wood plant of the American Sheet Steel company at McKeesport. There was an absence of idle men loitering in the streets, and it was evident the strikers had retired to their houses to await the decision of the national advisory board as to the advisability of calling out employees of other mills controlled by the American Sheet Steel company to aid them in their fight.

It was reported that the company would make an attempt to bring outside men to McKeesport and that a score or more men were on barges across the river awaiting an opportunity to be smuggled into the works. Patrols were thrown out and every avenue of approach guarded, but the report was evidently without foundation, as the expected move did not develop. The hammer house was the only department in operation, and unless the sheet mills resume work soon the men in this department will have no material to work on after Friday.

Manager Cooper posted an order notifying all the men in the run-out force, bar mill and sheet mill to report for work Thursday at 7 a. m. or consider themselves discharged. They were requested, in the latter case, to call at the office and get their money. A high board fence has been built around No. 2 mill, and it is reported that an attempt will soon be made to start it. The plant has 16 mills.

Members of the national advisory board and vice presidents of the Amalgamated association, who had been called together by President Shaffer to consider measures in connection with the strike, were slow in assembling. Previous to the meeting Mr. Shaffer said he would ask for power to call out at his discretion the employees of the American Sheet Steel company, and then if he deems it necessary, as a last resort, to extend the strike to all the plants of the United States steel corporation. He did not hesitate to declare his intention of carrying out his prerogative of calling out employees of the big combine, if such a resolution should be adopted by the board. He said: "I could not yield the point demanded of me at McKeesport, and I would rather die fighting than lie down. The issue has been drawn; there can be no backing down now. We have received telegrams from our members in different sections of the country indorsing the stand we have taken, and they say they will stand by us if it comes to a general strike."

#### A. F. L. Asked to Assist.

President Shaffer also wired President Samuel Gompers of the American Federation of Labor explaining the situation at length, and asking for any assistance the federation could give if the conflict came. It is considered by labor authorities that 50,000 men is a fair estimate of the membership of the Amalgamated association. The association is, according to a statement by Secretary John Williams, in a more prosperous condition financially than ever in its history. Of the total membership 15,000 are employed by the Republic Iron and Steel company, which is not a member of the Morgan combine, and by the independent mill plants here and elsewhere. Of the American Sheet Steel company's plants, 35 per cent of the total capacity is in organized mills. The company operates 18 large plants and a number of small plants, 6 of the 30 plants of the combine being shut down and partially dismantled. Twelve of the plants are union mills. The most important of the nonunion plants are the Vandergrift (Pa.) works, the Apollo (Pa.) works, and the mills at Wellsville, O., and Leechburg, Pa.

The meeting of the national advisory board and vice presidents did not begin until nearly 11 o'clock. There was a full attendance of the national officers and trustees who make up the board, and among the vice presidents present were David Reese of Pittsburgh, first district; Walter Larkins of Martin's Ferry, O., second district; Charles H. Davis of Newport, Ky., third district, and Clem Jarvis of Anderson, Ind., fifth district. No one was admitted to the meeting room but the members of the board and the vice presidents. Previous to the meeting a canvass of the members developed a strong individual disposition to grant President Shaffer power to call out employees of the other mills, although no one would venture to predict what

the decision of the board would be.

General Manager Smith and Secretary John Jarrett of the American Sheet Steel company were invited to be present, but Mr. Smith did not attend. Secretary Jarrett was on hand and consumed some time in placing before the members of the Amalgamated association the position his company had taken in the fight now on. President Shaffer stated that he would, if possible, go to McKeesport after the meeting to advise the men now on strike and counsel them to be mild in their acts.

The combine, it is said, will be asked to vacate the position it has taken, or a strike will be declared. Around Amalgamated headquarters a general air of expectancy prevailed. Men of all crafts dropped in and eagerly inquired as to what were the prospects for a strike. They seemed to realize that once the struggle is precipitated, its effects must of necessity be far-reaching, concerning them all.

#### Want Campaign Promises Fulfilled.

Syracuse, April 17.—Nearly 500 employees of the Onondaga pottery are out on a strike in sympathy with the girls who went out Saturday. The men, however, say that before the last presidential election pottery employees submitted to a reduction of wages on the promise of employers that should McKinley be elected the wages would be restored. This has not been done here and the men demand the raise. There are 30 employees still at work. Committees representing the strikers are in session with the general manager of the company.

#### Strike at Shamokin.

Shamokin, Pa., April 17.—At the Natalie colliery 1,000 men and boys struck because the Shamokin Coal company would not accede to their demands. The colliery is completely tied up. The men ask that James Bateyman, Inside foreman, and Conductor John Yeager of the miners' train be discharged, and that trainmen running on the company's road between Natalie and Summit be granted 10 per cent increase over present wages.

#### Switchmen's Strike Sticks.

Scranton, Pa., April 17.—The strike of the switchmen on the Scranton division of the Delaware, Lackawanna and Western continues, with no signs of break or settlement. It has already had the effect of shutting down all the mines of the Lackawanna Coal company and it is impossible to get any cars from the mines, thus forcing idleness on over 10,000 mine employees.

#### Brickmasons Strike.

Atlanta, April 17.—A total of 200 brickmasons, who have been getting 30 cents an hour for a 9-hour day, have struck for 40 cents and an 8-hour day.

#### GERMAN CLAIMS.

##### Indignation Felt Over Mr. Rockhill's Statement of Indemnities.

London, April 17.—A Berlin correspondent represents the German government as being in a state of considerable indignation at the statement in the American press of Mr. Rockhill's figures of indemnity which may be demanded from China.

The statement is said to be exceedingly incorrect and calculated to give an entirely false impression. The excess of German over the English claims is easily understood. The Germans sent a much larger force from Europe, while the British sent one from India, comparatively near at hand. In these circumstances it is regarded here as a matter of regret that the misleading account published in America should be commented on in the English press in a spirit calculated to give offense to Germany. Great indignation is expressed at the suggestion that the indemnity claimed by Germany includes a heavy pecuniary mulct for the murder of Baron von Ketteler. The baseness of the supposed is shown by the fact that the German claim is only £12,000,000 as against £14,000,000 stated by Mr. Rockhill, and therefore considerably less than the amount already voted by the Reichstag for the campaign.

There is no attempt in authoritative quarters to disguise the fact that much can be said in favor of the United States' suggestion in regard to the settlement of the indemnities, but the German government has refrained from taking up a definite attitude thereon until it sees how it is received by the other powers.

Dayton, O., April 17.—Henry W. Hawthorne, one of the invalid soldiers in the soldiers' home here, has just received notice that he has been made the beneficiary to the amount of from \$200,000 to \$500,000 left him by a woman out of gratitude for having saved her life many years ago. The woman is Mrs. Josephine Fairfax, who recently died in the south of France. Hawthorne went to England on a visit. While at Kent, bathing in the sea, he saw a woman and her son in a boat, which capsized. Hawthorne, being an expert swimmer, saved the woman, but the son was drowned.

## LOOMIS HAS LANDED.

Will Report at Washington Latter Part of the Week.

### DENIES THE SAN JUAN INTERVIEWS.

**Expects to Return to Venezuela But Will Ask for Leave to Visit Europe to Recuperate His Health. The Venezuelan Situation.**

New York, April 17.—Frank B. Loomis, United States minister to Venezuela, who arrived on the Caracas from Porto Rico, disembarked and drove at once to the Hotel Victoria, where he will be quartered until the end of the week, when he will go to Washington to report to the state department and President McKinley. He gives a positive disclaimer to the authorship of the San Juan interviews, in which he was made to say some severe things about President Castro, and he avers that an injustice has been done him in this respect.

Mr. Loomis said: "I did not say any of the unpleasant things that have been attributed to me about President Castro during my stay at San Juan or anywhere else. The fact is, I like Mr. Castro very much. I was interviewed at San Juan, but it was more a pleasant chat than anything else. There were other passengers aboard and present who said some unkind things, but I certainly did not. I can not understand how the criticisms were put in my mouth unless the views of the passengers alluded to were made mine. I am quoted as saying that President Castro drew but \$12,000 a year salary, yet had made \$2,000,000 in two years. Now I do not even know positively that the president gets the salary named, and I know nothing of any money he has made. I must also deny that he plotted to secure my recall or removal. I can not discuss the recent diplomatic incident with Venezuela. There are several points in connection with that I will report on to the department, and naturally they are quite confidential. I may say, however, that the preliminary steps toward a legal settlement of the asphalt cases have been taken in the Venezuelan courts. That is precisely where our government wished the disputes to go. We insisted that the dispute be submitted for adjudication without prejudice and carried our point. I do not say our government does not deserve the right to intervene if justice is not done, but we want the matter passed upon by the courts. There was some feeling at the height of the incident, but it has subsided, and our relations at present are quite satisfactory.

Scrapton, Pa., April 17.—The strike of the switchmen on the Scranton division of the Delaware, Lackawanna and Western continues, with no signs of break or settlement. It has already had the effect of shutting down all the mines of the Lackawanna Coal company and it is impossible to get any cars from the mines, thus forcing idleness on over 10,000 mine employees.

**GERMAN CLAIMS.**

Sandusky, O., April 17.—James Haslet, 17, while stealing a ride on a freight train was tripped off by low telephone wires, fell under the wheels and his body was cut in two.

### HIS SES AND HOWLS.

#### Stormy Demonstration at Induction of Bishop of London.

London, April 17.—The scene in Bow church during the consecration of the Rt. Rev. A. F. W. Ingram as bishop of London resembled a political meeting rather than a religious service. John Kensit, the anti-ritualist, entered an expected protest against the appointment and he spoke some time in a loud voice. His remarks caused an extraordinary uproar, and he was greeted with cheers, hisses, and shouts of "Order!" "Shame!" "No popery!" and many other interruptions.

Mr. Kensit, in the course of his remarks, accused Dr. Ingram of being unfaithful to all his promises when he was consecrated bishop of Stepney, adding that he had helped lawbreakers, had encouraged clergymen who, in defiance of the rubrics, elevated the host, offered masses, and practiced the confession, etc. He concluded with saying that he was prepared to appear in the courts and prove that Dr. Ingram was an unfit person to hold the position of a bishop of the Protestant church owing to his encouragement of Romish practices.

The friends and opponents of Mr. Kensit became so uproarious that the vicar general tried to clear the church. Dr. Ingram appealed to his friends to listen quietly. Eventually the vicar general overruled the objections, and the election of Dr. Ingram was confirmed. Disorderly scenes and hustling occurred outside the church, and finally Mr. Kensit was escorted home by a score of policemen and followed by a howling mob.

#### RAILWAY FOR A RIVAL.

##### British Building Road in Mexico to Compete With Canal.

London, April 17.—The British rival to the Isthmian canal is a railway which is being built across Mexico's narrowest point. This will be mainly an extension of the Tehuantepec line, built by the Mexican government to connect the Gulf of Mexico with the Pacific, which has no terminal facilities. S. Pearson & Company of London are reconstructing the railway into an interoceanic freight thoroughfare under an agreement made two years ago, the Mexican government leasing the road for fifty years.

The line will be ready within four years; 2,000 men are working, personally supervised by Sir W. Pearson. Harbors are being constructed at both ends, affording anchorage to the largest vessels. Mr. Pearson says: "We hope for 2,000,000 tons yearly on the railway. If the Nicaraguan canal carries that it will have to charge 30 shillings a ton to make 4 per cent, against our charge of 10 shillings. Again there will be a saving of time. We shall handle a ship's cargo in one day, against three spent in the canal. We have the best of the distance and a start of fully five years. Though the road is 190 miles long, it has 900 bridges of iron and stone, which, with the rails, are coming from America."

#### Another Big Steel Plant.

Philadelphia, April 17.—It is stated on what appears to be good authority that an immense steel plant will be built at Billingsport, N. J., on the Delaware river. Henry C. Frick and his friends are said to be interested in the enterprise. According to the story told here 600 acres of land have been secured, with ample water front, thus insuring the construction of wharves so that supplies from the mines of Pennsylvania and elsewhere could be laid down directly at the works by water at the least cost. The site selected fronts on the Delaware river between Red Bank and Lincoln park, about ten miles below Philadelphia. It is level ground, and the area of land purchased would warrant laying out villages for working people in addition to the big steel plant.

#### Turf Kings Matched.

Lexington, Ky., April 17.—The match race between Crescens and Charley Herr, scheduled for the October meeting of the Kentucky Trotting Horse Breeders' association, is an assured fact. Secretary Wilson received a letter from George H. Ketcham of Toledo, owner of Crescens, saying the terms were satisfactory. His check for \$500, which amount of the side bet of \$1,000 must be deposited at once, is expected in a few days. The horses will contest for a purse of \$7,000, of which \$2,000 goes to the loser. David Cahill engaged to enter Charley Herr.

#### Ohio Incorporations.

Columbus, O., April 17.—Defiance, Ottawa, Kenton and Columbus electric railway, \$50,000; Cleveland, Painesville and Ashtabula railroad, increase from \$1,000 to \$1,000,000; Chillicothe Hot Water Heating company, Chillicothe, \$40,000; Garrett Cromwell Engineering company, Cleveland, \$100,000; Akron Fireproof Construction company, Akron, \$40,000; Collinwood Lumber company, Cleveland, \$10,000; Union Printing company, Akron, \$10,000.

#### Wessels Still Lives.

Craddock, Cope Colony, April 17.—

Advices from Hellbron say Andries Wessels is alive. Wessels accompanied Morgan and Dael on his visit to the Boers in the capacity of a peace envoy and was reported to have been shot by order of General Dewet.

Venezuelan Courts Repudiated.

Port of Spain, Trinidad, April 17.—

Germany, the United States, Great Britain and Spain have refused the Venezuelan courts as fit tribunals to adjudicate claims involving the rights of foreigners.

## CAN'T CAPTURE CEBUS

They Hide In Impregnable Retreats In the Mountains.

### CEBU THE LEAST PACIFIED PROVINCE.

#### Judge Taft Tells Natives That Unless The Mountainmen Are Conquered Civil Government Will Not Supersede Military Control.

Cebu, Island of Cebu, P. I., April 17.—A force of 1,000 troops in the island of Cebu is unable to accomplish the surrender or capture of the 200 Filipino rillenmen who are still out. Colonel McClelland says the terms the Filipinos offered are impossible.

Of the 50 towns a dozen of the larger have been organized under military orders. The others are believed to have native governors. Judge Taft, addressing the convention, deplored the fact that Cebu was the least pacified province, and called on the delegates to decide whether 200 men would be permitted to restrain peace, or whether the majority would organize and notify the mountain natives to cease causing trouble. If the people were not ready to do this the committee would not supersede the military by civil control. The exhortation was not demonstratively received. Visayans from 24 towns represented urged the organization of a provincial government and the wind-up of the war, and commanded Colonel McClelland as commanding wisely and without bloodshed.

The island will probably be organized as one province. The population numbers 650,000.

#### Negotiations With Denmark.

Copenhagen, April 17.—The government is earnestly considering the recent somewhat modified proposal with regard to the sale to the United States of the Danish West Indies which is considered likely to lead to a satisfactory termination of the negotiations. Official circles are informed that the two governments are nearer an agreement than they have been at any previous time. The Danish government reiterates the reiterated reports published in English papers that a peremptory communication regarding the sale of the islands has been received from the United States. Officials are much impressed with the cordiality and friendliness the United States has shown throughout the negotiations.

#### Jockeying the Sugar Market.

London, April 17.—Excitement in the sugar market increases as Sir Michael Hicks-Beach's budget statement comes nearer. The Clyde crushed sugar exchange opened very excitedly and prices immediately jumped six pence per hundredweight. The demand was so strong that refiners asked for and secured an additional threepence. Everything offered was sold before the close. All the refineries have been working day and night for the past week.

#### Klondike Glacier.

Seattle, Wash., April 17.—Dawson arrivals on the steamship Humboldt say the Klondike is in the throes of a glacial phenomenon. Two months ago a glacier made its appearance on the hillside back of Dawson. The ice of the glacier is from 12 to 15 feet thick in places, and, besides rendering Dawson uninhabitable, it threatens to render the trail leading to the cemetery impassible during the summer.

### OUTRAGEOUS BEHAVIOR

Aded to Thievery by Officials in the Philippines—Trial of One of the Offenders.

MANILA, P. I., April 15.—The trial of Commissary Sergeant John Metson, charged with complicity in the commissary frauds, is finished. No verdict was announced, and Metson's conviction is uncertain. Other trials of those implicated will follow.

Capt. James Read, formerly Depot Commissary at Manila, has been arrested.

It is alleged that entries upon the books of Evans & Co., government contractors, indicate that the commissary officers received the following sums: Major Geo. B. Davies, upwards of \$1,000; Captain James C. Read, \$1,000; Frank H. Lawton, \$750; B. L. Tremaine, Col. Woodruff's chief clerk, \$700.

It also appears that Evans & Co. furnished the handsome residence of Col. Woodruff. Harold M. Pitt, manager of Evans & Co., who is now under arrest, was notoriously lavish in entertaining commissary and officers while the depot commissary, a frequenter of the disreputable district, occasionally spent days at Pitt's house in questionable society. Pitt's house is a Bacchanalian rendezvous, and prominent officers frequently visited it, drinking champagne and playing poker.

### BANKS' ARREST.

Man Caught Here For Horse Stealing Probably Sailed Under a Different Name at Portsmouth.

The Portsmouth Blade, speaking of the arrest of John Banks here this week on charge of stealing a horse from Oscar Foster at that place, says: "The description of the man who has been arrested corresponds exactly with the appearance of a man named Owen Banks, who was formerly employed by Mr. Foster. This man was caught in the act of thieving from his employer and skipped the country to escape prosecution. It is now thought that this is the same man. It has been Sheriff William's theory, all along, that this was the guilty party and he has been working along this line. When it was learned recently that a man with a horse that looked like Foster's had been seen crossing the Ohio river at Vanceburg, special postal cards were sent by the Sheriff into Kentucky at all points where they were likely to do good and this arrest is the result of these prompt measures."

River News.  
Urania, Stanley and Keystone State up to-night. Courier down.

The Tacoma is due up for Manchester and will pass down this evening.

About all the coal loaded at Pittsburgh has now been taken out and the miners are being rushed so that the shipments can be continued, as a good barge water still prevails.

The towboat E. R. Andrews is said to have sprung a leak in her steel hull sometime Tuesday, while on her way from Kanawha with a tow of coal. She will be taken out on the Queen City Marine Ways for repairs.

The salary of one of the clerks of the Maysville postoffice has been increased from \$400 to \$500, under the readjustment just made.

There is no improvement in the condition of Mr. James Molloy, of Germantown. Dr. Ransohoff, of Cincinnati, is expected to-day to perform another surgical operation on him.

"The Trials of Jesus" will be Prof. Coler's subject at the Christian Church this afternoon at 3 o'clock, and to-night at 7:30 he will speak on Joseph. To-morrow night Prof. Coler will give a popular lecture on "Secrets." Admission to all these lectures is free. The public invited.

A Raging, Roaring Flood  
Washed down a telegraph line which Chas. C. Ellis, of Lisbon, Ia., had to repair. "Standing waist deep in icy water," he writes, "gave me a terrible cold and cough. It grew worse daily. Finally the best doctors in Oakland, Neb., Sioux City and Omaha said I had consumption and could not live. Then I began using Dr. King's New Discovery and was wholly cured by six bottles." Positively guaranteed for coughs, colds and all throat and lung troubles by J. Jas. Wood & Son. Price 50c. and \$1. Trial bottles free.

## DANGER AHEAD.

### Banker Clews Says What Goes Up Must Come Down.

### He Thinks the Present Speculative Craze in the Stock Market Will Be Followed by a Crash.

Banker Henry Clews in his weekly letter from Wall street sounds a note of warning. "The speculative fever," he says, "is rising instead of falling, and ordinary experience is of little value in judging the course of the market. The forces behind the present movement are tremendous. Those responsible for the various deals, actual and rumored, are giving the market their full support. Prices may be high enough, too high in fact for conservative opinion, but prudent warnings fall upon deaf ears, and it is quite possible that the market will continue its course with occasional sharp reactions for some time to come. The large capitalists have plans under way to which a bear campaign would be fatal. They are obliged to support the market; and, as the latter is still under their control, they are likely to encourage a moderate and prolonged advance rather than a skyrocket rise. General conditions, it must be admitted, are all in their favor; prosperity continues both for railroads and industries, and there is no prospect of change in sight. The whole country is passing through one of its periodic waves of development, the inevitable accompaniment of which is always a 'boom.' As yet there are no weak spots in sight and money, while firm, is not stringent.

It is very difficult to fix on any period at which the current boom may be expected to end its course. It is altogether exceptional as to its causes. Its main stimulus centres in its connection with the great movement of industrial consolidation. The conversion of some \$2,000,000,000 of corporate capital into a much smaller number of corporations with approximately \$5,000,000,000 of nominal capital,—of which \$3,000,000,000 is common stock, based mainly upon good will,—amounts to a stupendous inflation, which has deranged the whole basis of investment values. The inflation of such an enormous aggregate of the productive capital of the country has the natural effect of inflating the market value of other forms of investment, among the first of which come railroad securities. It is assumed that, if a process of financial reconstruction can be made to warrant a doubling of the capital of our manufactures, then an amalgamation of our railroads, our mines, our oil wells and our steamship lines warrants a similar expansion in the market value of the securities representing those classes of investments; and thus the inflation has swiftly spread over every class of securities that finds its market in Wall street.

"For the time being, there is some basis for this immense expansion in the extraordinary run of national prosperity (which has found some parallel in the commercial activity of other countries), but which, however, is not to be reckoned upon as a permanency. The expansion of our industrial capitalizations is kept up with such persistency and on such a vast scale, it is sanctioned by such an array of influential names and is underwritten by financiers of such great potency, that speculation knows neither caution nor limits. There seems to be no end to the creation of new deals, and each successive one adds new oil to the flame of excitement.

"All this means, however, that the danger is increasing at every step. Every movement in such a direction piles up the more false construction to be undone. The higher prices are pushed above the normal level, the lower will be the fall below it. The bulk of past profits may to-day inspire the utmost confidence, but when the impetus of the final liquidization gets on full headway, the reaction is likely to surpass many of the previous adjustments of Wall street booms. At the moment, the situation is probably inopportune for the promoters of the great industrial schemes to permit any encouragement of a realizing policy. When that stage arrives, the outside interests will soon discover their position and the return of the market to its normal level is not likely to be a slow process.

"I do not intend that our friends shall remain uncautious as to the end with which this extraordinary excitement may be expected to culminate. My experience through many speculative episodes has proved to me that there is only one outcome from wild excesses in the stock market, and that the safe policy is to quietly get out whenever prices reach extreme figures."

### Board of Trade.

The directors of the Board of Trade are requested to meet at the rooms in the Cox Building to-morrow (Friday) evening at 7:30 o'clock. Let all be present.

### WEDDED AT ST. PETER'S.

Nuptials of Hon. Frank P. O'Donnell and Miss Elizabeth Durac Flannery Celebrated at the Cathedral, Cincinnati.

The marriage of Hon. Frank P. O'Donnell, of this city, and Miss Elizabeth Durac Flannery, of Cincinnati, was solemnized at 8:30 o'clock this morning at St. Peter's Cathedral, that city, the Rev. John M. Mackey officiating.

The happy couple were attended by Miss Margaret Murry and Mr. Joseph W. O'Donnell, a brother of the groom, while Mr. Wm. Flannery and Mr. Edwin Bolger officiated as ushers.

Following the ceremony, the entire party, consisting of the bride and groom, and Congressman James N. Kehoe, Mr. John M. Hunt, Mrs. Eunice O'Donnell, Mr. and Mrs. Jos. W. O'Donnell, Mr. and Mrs. Charles F. McNamara, Mr. and Mrs. Martin A. O'Hare, of this city, Misses Flannery, of Cincinnati, Miss Murry, the Messrs. Flannery and Bolger, Mrs. Margaret Flynn, of Lexington, and Rev. John M. Mackey, drove to the Grand Hotel where the wedding breakfast was served.

The groom is a son of Mrs. Eunice O'Donnell. He is now serving his first term as County Attorney, and has attained an enviable position at the Maysville bar. A host of warm friends throughout the city and county unite in sincerest wishes for the continued happiness of himself and bride.

Mrs. O'Donnell is an accomplished and very charming young woman, and she will not come to Maysville an entire stranger, as she won many admirers and friends during visits here in recent years.

Ralston's breakfast foods,—Caihoun's.

The L. and N.'s pay train was here Tuesday evening.

There is no improvement in the condition of Mrs. Robert Ficklin.

For ready mixed paint that's guaranteed call at Ray's Postoffice drug store.

F. A. Neider, of Augusta, has been granted a patent for a carriage curtain knob.

Dr. C. W. Aitkin, of Flemingsburg, will remove to Colorado Springs next month.

An electric railway from Lexington to Frankfort will probably be erected at an early day.

Mr. M. C. Russell is able to be at his place of business after being housed a few weeks.

When you need paint, go to Chenoweth's drug store. He has the best that can be made, ready to use.

W. W. Tracy, the temperance evangelist, will hold a tent meeting at Ashland in June. He spent some time in Maysville a few years ago.

At West Union the trial of E. M. B. Snelling, upon a charge of manslaughter, is on. Snelling killed Wylie Morgan at Manchester, February 12.

A freight train was derailed on the Kinicinnick railroad one day this week, the engine and six cars landing in a creek. No lives were lost.

Miss Florence Wadsworth passed a comfortable night and her many friends will be gratified to know her condition is slightly improved this morning.

### ATKINSON--FILSON.

A Pretty Wedding Solemnized Last Evening at the Home of the Bride's Sister.

The handsome home of Mr. and Mrs. John I. Mathews on Forest avenue was the scene of a pretty wedding last evening at 8 o'clock. At that hour, Mrs. Mathews' sister, Miss Elexine Filson, became the bride of Mr. Charles Atkinson, of Salyersville, Ky., the ceremony uniting the happy couple being pronounced by Howard T. Cree, minister of the Christian Church.

The parlors were crowded with relatives and intimate friends. The bride's little nieces, Misses Mary and Naomi Mathews and Nettie Breen, acted as flower girls, and preceded the couple as the bridal party entered the parlors.

The bride was very lovely in a gown of Paris muslin, trimmed with biadre lace, with veil and gloves, and carried a bunch of Bride rose, narcissus and sunlax. Her traveling gown was of blue cloth, with relief of yellow.

Following the ceremony a wedding supper was served, the decorations of the tables being in pink and white.

The bride is a daughter of the late Samuel Fileon of this city and is one of Maysville's estimable young ladies.

The groom is a leading young attorney of Salyersville and a nephew of State Treasurer Hager.

Mr. and Mrs. Atkinson left on the 10:46 train last night for their future home at Salyersville.

The wife of Philip Roth, living east of Aberdeen, was badly bruised by a cow she attempted to drive out of a wheat field.

Messrs. L. M. Collis and O. B. Mayhugh are erecting a flour mill at Orangeburg. It will have the latest improved machinery and will have a capacity of thirty-five barrels a day, and arrangements for the sale of the output have already been closed.

The C. W. B. M. and Sunday school convention of the Christian Church for the Twelfth Kentucky district, composed of Fleming, Robertson, Mason, Lewis and Bracken counties, to be held at Flemingsburg has been postponed until May 14 and 15th.

Dr. Howard A. M. Henderson, formerly of the Kentucky Conference, M. E. Church, South, has written an historical novel entitled, "Diomedes, the Centurion, or Sowing Scarlet Seed." It covers the first century of the Christian era, giving a panoramic review of the introduction of the Christian religion. The book will be published about May 1st.

The Court of Appeals Wednesday acquitted Clerk Claude Chinn, of Fayette County, of the charges filed by the Attorney General, seeking to remove him from office for alleged failure to perform the duties of the office and also for an alleged shortage of \$10,000 in his official accounts. Judge Burnam writes the opinion dismissing the information filed by the Attorney General, holding that the charges were not proved in the manner proof should have been filed. Chief Justice Payne and Justice White dissented.

A son of Mr. and Mrs. Omar Latte, formerly of this city, is critically ill at the home of the family in Paris, with typhoid fever.

Mr. E. C. Shearer, piano tuner, of Cincinnati, will be here week beginning April 21st. Leave orders with Miss Lida Berry or Mrs. Joe Wood.

Mr. Charles Wallingford, of Fern Leaf, has sold to Messrs. Lauderhach and Gray, of Augusta, 28,000 pounds of tobacco at 62 cents a pound. He has delivered over 20,000 pounds of it.

Allen Kinnard, living two miles east of Vanceburg, was bitten by a mad dog that was near the last stage of rabies. Mr. Kinnard came to town and the wound was cauterized by Dr. Wells, but it is feared too late.

W. J. Harahan, who has been Superintendent of the Louisville division of the Illinois Central, has gone to Chicago to take an important position under his father, J. T. Harahan, who is Vice President of the company.

A few days ago a tramp visited a Maysville home, begging something to eat. He was given a half dozen biscuits and some candy by the children of the household. This was evidently too plain food for his delicate appetite, as he threw it away on leaving the front gate. His actions may be explained, however, by the fact that his pockets were already filled with food he had begged at other houses in the neighborhood.

The Enquirer says the construction of the Little Miami Traction Company's line from Springfield to Cincinnati will be pushed at once, and all arrangements for financing the deal have been made. The Cincinnati Trust Company has been made trustee under the mortgage and fiscal and transfer agent. The company is capitalized for \$500,000, with \$500,000 of 5 per cent. bonds. This is the company that contemplates building an electric road from Aberdeen to connect with the above line.

As the result of a row with the students over the use of tobacco, Dr. Dudley S. Reynolds, a member of the faculty, and lecturer at the Hospital College of Medicine, Louisville, has tendered his resignation. Dr. Reynolds had a row with the junior class of the institution over the use of tobacco. He is violently opposed to the weed, and considers the man who uses it of unsound mind. When he went into the classroom one night and found the air thick with smoke, he ordered all the windows raised, and spoke his mind freely. The class left in a body, and demanded the removal of the teacher. Dr. Reynolds refused to apologize to the class, and tendered his resignation.

### THE C. AND O.

The Company's Earnings Steadily Increasing and It Is Said the Road Will Pay a Handsome Dividend.

#### [Exchange.]

The Chesapeake and Ohio road, for a long time in the rear of the procession in the matter of earnings, is forging to the front.

During the early part of Mr. Ingall's incumbency as President, the earnings were put into improvements, the roadbed was ballasted, new bridges were built, old ones replaced and improvements made in the rolling stock.

Now, it is said the road's physical condition is as good as that of the leading eastern lines. Charles B. Ryan, Assistant General Passenger Agent, states that the road will now pay 3 per cent. on common stock. He says the road has all the facilities for getting into New York its officers care to have. It is stated in eastern papers that a new deal is on for C. and O. entrance into the metropolis.

Mrs. Rosa Wood Aikman is quite ill at her home on Lee street.

Mrs. O. B. Stitt is showing the newest things in shirt-waist hats. See them.

A ten-dollar counterfeit bill was passed on James Craven, a fruit dealer at Flemingsburg, a few days ago by a negro man. Mr. Craven was formerly a resident of Maysville. He hunted up the negro and forced him to return his good money. Other attempts to "shove" counterfeits have also been made at that place.

BALLINGER, jeweler and optician.

The two-year-old child of Thomas Small, living near Carlisle, met with a horrible death. Mrs. Small left the room, where the child was playing, a few minutes, and when she returned the little one's clothing was all ablaze. She burned herself badly in extinguishing the flames. The child was so severely burned that it died two hours later.

Mr. James P. Ingram, whose wife recently deserted him and went to Bath County, has filed suit for divorce. They were married in 1894 and have two children, for whose custody he asks. She took the oldest child with her, but Mr. Ingram, accompanied by Constable Dawson, went to Sharpsburg and recovered the little one. Mrs. Ingram's friends have sworn out warrants in Bath against Mr. Dawson on charge of kidnapping the child.

### FOR MOTHERS.

The period immediately following child-birth is fraught with many dangers. The strength has been used in the painful ordeal through which the mother has passed and she finds herself helpless and weakened. Many mothers, like Mrs. Ford, date the beginning of their illness from the birth of their child. Indeed the frequent spectacle of a healthy young woman becoming a chronic invalid after motherhood is one of the tragedies of life. All this is unnecessary, when Wine of Cardui is obtainable. It rehabilitates the shattered nervous system, strengthens the organs and ligaments, and re-establishes a healthy, natural condition, saving years of chronic sickness and suffering. Wine of Cardui taken just before confinement will render the ordeal comparatively painless. It will re-enforce and strengthen the organs for their work. For every trying crisis in a woman's life, Wine of Cardui is the medicine to take. Ask your druggist for Wine of Cardui and take no substitute. If one is offered send \$1.00 for a bottle to the Chattanooga Medicine Company, Chattanooga, Tenn.

### WINE OF CARDUI

Clarkson, Ark., July 20, 1899.  
After my hard work, I took the whites and falling of the womb, and was in a very dangerous condition. I read one of your home treatment books, and commenced to treat myself with Wine of Cardui and Black Draught. I am thankful for what the medicine did for me, and I am now in better health than I have been for a long time. Mrs. MARGARET FORD.

### NEIGHBORHOOD NEWS.

Items of interest Contributed by Our Country Correspondents.

ORANGEBURG, April 17th.—Fishing is fashionable. Town is often nearly deserted by male population the warm days. Messrs. Grant Wilson, Dr. Ball and John Carter always show up good strings.

Wheat and rye are looking nicely and good crops are anticipated. Plowing has been held back by wet weather, but will soon be done. Grass in pastures is coming forward rapidly.

Tobacco bed planting is about completed and some of the earliest planted are showing up a fine crop of the famous material for future plugs and twists.

Miss Lella Herbert, teacher in our school, gave each one of her scholars a nice present at the close of school.

Elwood Tolle, son of R. P. Tolle, Esq., is reported seriously ill with pneumonia.

Misses Bertie Campbell and Lucy Mason are preparing a fishing party for their Sunday school scholars.

Abe Braund has just recovered from a severe attack of the grip.

Sheep-killing dogs have been at work on Charley Roe's lambs. And he killed three of the guilty canines Monday.

George Roe captured five nearly grown fox squirrels Monday and has them safely caged at home.

Ambrose Dickson met with an annoying accident last week. He was conveying six dozen eggs to market in a road cart. Just within the city limits, on dismounting to attend to some business, the restive horse started suddenly, wrecking the entire cargo. It is probable that Mr. Dickson made some emphatic remarks on discovering the extent of his loss, and, as eggs are the housewives' perquisite for adding to her fund of pin money, it is a foregone conclusion that his better half offered some suggestions as to their manner of conveyance to market in future.

Prof. L. C. Grimes, of the Orangeburg school, at its close, presented each of the forty-four pupils of his room with a tastefully engraved embossed souvenir in the way of a folding card with his photograph as the frontispiece and the names of the pupils printed in red. The tints are in red and gold, and all in all it is an apt and appropriate token of remembrance.

The blacksmith shop formerly occupied by the village blacksmith, T. J. Hellin, in which he toiled with patient ingenuity at the various branches of his laborious trade and chatted cheerfully with customers and passers-by for a quarter of a century, was torn down by its present owner, L. M. Collis, last week to make improvements. Mr. Hellin, owing to an affection of the eyes and kidneys, being unable to stand the strain of an arduous occupation, has removed to his cozy farmhouse with his family to recuperate.

Professor G. H. Turnipseed, the deservedly popular teacher of the Reectorville school, gave his scholars an outing last Saturday, celebrating the close of the session. Fishing was the order of the day and an exceptionally jolly time was enjoyed by all. An enjoyable lunch was taken at noon, and in the evening the returning wagon load of children made the hills around Orangeburg re-echo with their cheers for Turnipseed.

For he will win the race, indeed,  
Our teacher, Geo. H. Turnipseed,  
And among the schools his way he'll wend;  
Instead of teach, he'll superintend.

The colored school house at this place is probably the smallest in the State. It is a one-story building, sixteen by twenty feet. It is ample for the accommodation of the scholars, the attendance averaging about twenty. Miss Mattie Dill, the lady in charge, can sit at her desk and teach all unruly students with a hoop-pole, if necessary. There will be a concert Saturday evening for the benefit of the school, which has just closed. Refreshments will be served. All are cordially invited. Exercises begin at 8 o'clock p.m.

Charles Harrison, while out in his sheep pasture one afternoon recently, found a ewe which had become the mother of twins. The next morning he repeated his visit and found the mother all right, but the lambs had disappeared. He then investigated a bushy near by and discovered the entrance to a den with a well defined trail leading thereto. He procured excavating implements and soon unearthed an old she fox and five young ones. Having the loss of the twins foremost in his mind, he dispatched the mother in a very summary manner. The young ones distributed around among his friends. Mr. Chas. Calvert has one and Duke Wilson, son of our postmaster, has another.

Orangeburg after several years of quiet is on a boom. We have now three stores, and a flour mill is to be located on the Johnson-McKay property on a lot purchased by the promoters. The lumber for the mill is being sawed out at Mr. Collis' log yard by Chas. Calvert. The main building will be twenty-four by thirty-six feet, exclusive of engine room. It will be a frame, three stories in height, fronting on Mt. Carmel pike, nearly opposite Marma Collis' new Bee Hive store. It will be roller process, with latest improved machinery, with an output of thirty-five barrels per day. Meal will also be made, bolted and unbolted. A cooper shop with a capacity for turning out forty barrels per day will occupy an additional building. L. M. Collis and O. B. Mayhugh are the proprietors. It is said Grant Wilson will take twenty barrels of flour per week, and Omar Dodson of Maysville, all surplus flour. It will be erected in a very short time, the framed lumber being all ready now and on the ground. A large cistern is being excavated to supply the mill with water. Charles Kennan, with his usual willingness to aid all commendable enterprises, is delivering the lumber on the ground with a four horse team.

Charles Harrison, while out in his sheep pasture one afternoon recently, found a ewe which had become the mother of twins. The next morning he repeated his visit and found the mother all right, but the lambs had disappeared. He then investigated a bushy near by and discovered the entrance to a den with a well defined trail leading thereto. He procured excavating implements and soon unearthed an old she fox and five young ones. Having the loss of the twins foremost in his mind, he dispatched the mother in a very summary manner.
